For Doors Over 12' Wide

StripGard PVC strip doors and curtains are an economical solution for protecting people and goods from adverse environmental conditions. They're inexpensive, easy to install, and can save hundreds of dollars in energy costs every year. They provide thermal insulation, noise reduction, and physical or visual barriers.

StripGard is made by an ISO 9002 certified manufacturer, with over 30 years of experience providing quality products in the plastics and laminates industries.

Available in standard colors clear, green and yellow as well as custom colors to help improve work place esthetics and environment. Call for additional sizes and pricing.

All doors are shipped with Universal-Mount Bracket. Additional charges apply for optional brackets, including Stand-Off-Mount.

All door kits shipped will include either yellow or green strips for the right and left to identify the sides of the doors.

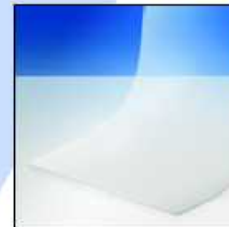

* Customer responsible for all freight charges.

** All door kits are sold with the Light-Duty Stand-Off-Mount hardware with the exception of the 14'x10' kit. Due to the size of door opening the Heavy-Duty Stand-Off-Mount has been substituted

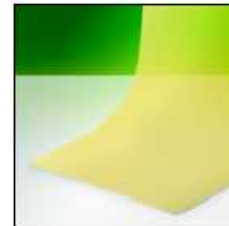

StripGard Standard

Ideal for loading/unloading doors, transparent windows, noise curtains, personnel doorways, conveyor doors, area partitioning, assembly lines and painting areas.

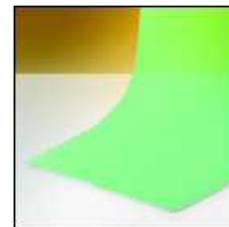

StripGard Polar

Manufactured with a highly resistant material for low temperature conditions— as low as -40°C without losing flexibility!

StripGard Insect Proof

Specially designed to repel insects. Recommended by sanitation departments concerned with environmental safety. USDA approved. Safe for animals.

StripGard Shield

Specifically designed for enclosing areas where welding is being performed. It's tinted color helps reduce the incidental effects of bright, ultra violet light from welding arcs.
